EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: Title changed to "LCD with first and second circuit regions each with separately optimized transistor properties."

Response to Arguments

All previously rejected claims have been cancelled. Claims 5 and 9-10, which were previously objected to have been rewritten in independent form therefore all outstanding issues have been resolved.

Allowable Subject Matter

Claims 5, 9-10 and 12 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 5, 9-10 and 12, there is no prior art of record that teaches the combination of:

A.) first type circuit region having a peak-to-valley height difference in said channel, source and drain is less than 5 nm.

Art Unit: 2871

B.) first type circuit regions having crystalline grains of rectangular shape of .4 microns to 2 microns and width of 5 microns in length.

C.) second type circuit regions having TFTs with average grain diameter is 1 micron or smaller

D.) second type circuit regions having a peak-to valley height difference of greater than 20 nm in the channel, source and drain regions.

The references as sighted teach properties A-D separately however they fail to provide motivation to combine A and B for first circuit region and C and D for second circuit region. As the references and the prior art fail to designate any particular way to combine limitations of A, B, C, and D especially since A and D are mutually exclusive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phu Vu whose telephone number is (571)-272-1562. The examiner can normally be reached on 8AM-5PM M-F.
